

Slender Bells White™

NEW

Pandorea jasminoides 'PJ01' (L)

NATIVE SHRUBS & GROUND COVERS

Slender Bells White™ Pandorea is a dense, compact climber perfect for narrow spaces.

- With masses of pure white flowers and more compact, dense foliage, this climber is ideal for narrow spaces.
- It can be pruned down to 2 metres high and 40 centimetres wide, only needing pruning twice a year.
- Without pruning, it can reach up to 2 metres wide.

Description	More dense, compact climber
Height & Width	2–3m x 40–60cm pruned; 80cm–2m wide unpruned
Density	1–3 per linear metre
Flowering	Pure white flowers from late spring to summer
Best Planting Time	March–November
Uses	As a climber for covering fences and trellises, ideal for narrow spaces
Position	Full sun to part shade; Moderate frost tolerance, drought tolerant
Soil Type	Most soil types
Care	Prune twice per year for a narrow tight climber, prune a few months after planting
